

An Energy Supplement for Horses

Product Description

Omegatin® is a proportionally balanced, complete, 15% protein, 20% fat, pelleted, nutrient-dense horse feed with an exceptionally low level of starch (14%).

Features and Benefits

20% Fat - Designed for high calories and low carbohydrates. The low starch level is approximately 50% less than many popular "rice-bran" products, and is possible due to highly digestible and specialized proprietary ingredients. A low-starch diet has been shown to minimize the risk of gas colic and laminitis, while also lowering the glycemic response.

Soft Pellet - Means none of the digestive and feeding problems associated with a meal; and ingredients are not exposed to high temperatures and pressures of extrusion. It is ideal for horses with few or sensitive teeth.

Chelated Trace Minerals - The natural bioavailability of trace minerals is critical to good health and optimum performance.

Flaxseed - Provides omega fatty acids.

Lecithin (an Emulsifier) - Makes the fat more available to the digestive system of the horse.

Cherry-Flavored Corn Oil - Enhanced palatability.

Mixed Tocopherols, Citric Acid, and Rosemary Extract - Naturally preserve the corn oil.

Feed as a Top-Dress - Flexibility and convenience.

Fixed Formula - For product quality and consistency means no least costing or "best-costing" of ingredients. Consequently, substituted ingredients do not challenge cecum bacteria, which improves digestibility and helps prevent cecal colic.

Proper Calcium:Phosphorus Ratio - Helps prevent one heavily fortified nutrient from interfering with the availability of other nutrients.

Supplemental Lysine, Methionine, and Threonine (the Three Most-Limiting Amino Acids in an Equine Diet) - A natural product designed to reduce ammonia odors, is especially beneficial in confined situations.

Research-Proven - For peace of mind.

An Energy Supplement for Horses

GUARANTEED ANALYSIS

Crude Protein, Min.	15.0 %
Lysine, Min.	0.8 %
Methionine, Min.	0.2 %
Threonine, Min.	0.5 %
Crude Fat, Min.	20.0 %
Crude Fiber, Max.	11.0 %
Calcium, Min. 0.65 %	Max. 1.15 %
Phosphorus, Min.	0.7 %
Salt, Min. 0.3 %	Max. 0.8 %
Copper, Min.	20 ppm
Selenium, Min.	0.3 ppm
Zinc, Min.	100 ppm
Vitamin A, Min.	9,000 IU/lb
Vitamin D ₃ , Min.	2,000 IU/lb
Vitamin E, Min.	200 IU/lb
Biotin, Min.	0.5 mg/lb

INGREDIENTS

Corn Germ, Wheat Middlings, Dehydrated Alfalfa Meal, Soybean Meal, Soy Hulls, Flax Seed, Corn Bran, Distillers Dried Grains with Solubles, Vegetable Oil, Monocalcium Phosphate, Dicalcium Phosphate, Calcium Carbonate, Yeast Culture, Salt, L-Lysine, DL-Methionine, L-Threonine, Modified Lecithin, Phospholipid, Neutral Lipids, Yucca Schidigera Extract, Vitamin A Acetate, Cholecalciferol (source of Vitamin D₃), Vitamin E Supplement, Menadione Dimethylpyrimidinol Bisulfite (source of Vitamin K Activity), Riboflavin Supplement, Niacin Supplement, Calcium Pantothenate, Choline Chloride, Vitamin B12 Supplement, Biotin, Folic Acid, Thiamin Mononitrate, Pyridoxine Hydrochloride, Zinc Methionine Complex, Copper Amino Acid Complex, Manganese Amino Acid Complex, Calcium Iodate, Manganous Sulfate, Ferrous Sulfate, Copper Sulfate, Cobalt Carbonate, Sodium Selenite (source of Selenium), Natural and Artificial Flavors, Natural Mixed Tocopherals, Citric Acid and Rosemary Extract (preservatives).

CAUTION: This feed contains supplemental copper. Do not feed to sheep.

MANUFACTURED FOR
BLUE SEAL® FEEDS, INC.
P.O. Box 8000, Londonderry, NH 03053

Suggested Feeding Recommendations:

As a top-dress, **Omegatin**[®] may be fed at a minimum of ½ lb. up to 4 lbs. per animal daily along with the grain mix and roughage.

The suggested feeding program is intended solely as a guide. The variables associated with management, environment, and breed may dictate changes in the animals' requirements.
