

CHARGER®

Horse Feed

Product Description

Charger® is a high-fat, coarse-textured blend of oats, flaked barley, flaked corn, pellets and extruded nuggets wrapped in molasses and vegetable oil. Designed for growing horses, performance horses, breeding stallions, and pregnant mares, **Charger®** provides a high quality, nutritionally balanced diet for the professional equine operation.

Available in a 50-lb bag.

Features and Benefits

Blend of Quality Grains and Pellets - *The blend of oats, barley, corn, and pellets provides energy to the horse at different rates for controlled energy release while the coarse texture increases salivation and aids in digestion.*

High Fat - *Vegetable Oil increases energy density and efficiency for sustained performance and endurance. The addition of fat helps reduce the risk of starch overload while maintaining desired calorie level for optimum weight and body condition of active horses. Vegetable oil also helps improve skin and hair coat condition, enhancing overall appearance of show horses.*

Extruded Nuggets with Alfalfa, Beet Pulp, Rice Bran, and Soy Hulls - *Extruded nugget provides highly digestible and fermentable sources of fiber which help to maintain the high-calorie level while minimizing the incidence of colic, ulcers and other digestive disorders.*

Fixed Components - *A consistent formula using only the highest quality ingredients to prevent sudden changes in the diet and to maintain digestive health and function.*

Chelated Zinc, Copper and Manganese, Plus Bio-Available Selenium - *The greater mineral absorption and utilization helps meet the increased needs for bone, muscle and tissue strength in growing horses and performance horses. Overall reproductive performance and efficiency is sustained in breeding mares and stallions.*

Vitamins A, D, E, and Stable Vitamin C - *Provides a supplemental source to help guard against deficiencies and maintain optimal health and metabolism. As potent antioxidants, vitamins E and C help maintain cell membrane and tissue integrity, plus support immune system function.*

B-Complex Vitamins (including Biotin) - *Actively involved in the metabolism of carbohydrates, fats and protein into usable energy for performance. Added B vitamins support healthy growth of skin, hair and hooves.*

CHARGER®

A COARSE-TEXTURED GRAIN RATION WITH EXTRUDED NUGGETS

For Growing Horses, Active Performance
Horses, Breeding Stallions, and Pregnant Mares

Suggested Feeding Recommendations:

STORE IN A COOL DRY PLACE

This product may spoil if stored under adverse conditions. Do not feed this product if believed to be unfit for animal consumption.

BLUE SEAL CHARGER is a high fat, coarse-textured horse feed with an extruded fiber nugget.

DAILY GUIDE: It is necessary to adjust the feeding of **BLUE SEAL CHARGER** to the condition of the horse. Offer good quality hay or pasture and salt free choice. Provide plenty of fresh water.

<u>Horse Class</u>	<u>Age</u>	<u>Suggested Feeding Range*</u> <u>lbs/100 lbs body wt./day</u>
GROWTH		
Yearling	12 to 24 mo.	0.75 - 1.30
2-Year Old	24 to 36 mos.	0.60 - 1.15
ADULT		
Light Exercise	Mature	0.40 - 0.65
Moderate Exercise	Mature	0.50 - 0.75
Heavy Exercise	Mature	0.60 - 0.85
Very Heavy Exercise	Mature	0.75 - 1.35
BREEDING		
Pregnant Mare, last trimester	Mature	0.40 - 0.75
Lactating Mare, 4 – 6 mos.	Mature	0.80 - 1.20
Breeding Stallion	Mature	0.40 - 0.70

*Suggested program is based on offering grass or mixed grass hays. If feeding legume hays or rich pasture, consult your Blue Seal Sales Representative or Customer Service.

Comments: For additional mineral-vitamin fortification, or if **CHARGER** is fed below the recommended feeding range, feed the appropriate **Winning Touch Equine Supplement**, depending on type of hay being fed.

The suggested feeding program above is intended solely as a guide. The variables of management, environment, and breed may dictate changes in the animal's requirements.
