

TROTTER®

Horse Feed

Product Description

Trotter® is a complete, pelleted feed designed for horses with limited access to hay or pasture. **Trotter®** is an ideal feed for stabled horses and horses being transported to shows or trail events where sufficient hay or pasture may be limited. **Trotter®** may also be used to supplement high grain feeds with additional fiber to promote good digestive flow and function while maintaining proper mineral and vitamin nutrition.

Available in a 50-lb bag.

Features and Benefits

Pelleted Form - *Pelleting improves the digestibility and nutrient utilization of grains in the horses' sensitive digestive tract, while providing balanced nutrition in every bite.*

High Fiber/Low Starch - *Contains quality fiber sources, including alfalfa, to help meet the fiber requirements of horses fed a limited amount of hay. A high-fiber and low-starch diet promotes healthy digestive function.*

Chelated Zinc, Copper and Manganese, Plus Bio-Available Selenium - *Optimum levels and ratios are supplied to help ensure a balanced diet for maintenance and performance. The more biologically available organic forms are added to help minimize the detrimental effects of mineral imbalances in water and forages.*

Vitamins A, D, and E - *Provides a supplemental source to help guard against deficiencies and maintain optimal health and metabolism.*

B-Complex Vitamins (including Biotin) - *B vitamins are involved in the metabolism of carbohydrates, fats and protein and are important for the growth and health of skin, hair and hooves.*

Suggested Feeding Recommendations:

BLUE SEAL TROTTER is a nutritionally balanced pelleted complete feed for horses with limited access to hay or pasture or horses with respiratory conditions like heaves. Some good quality hay should be offered to help maintain good digestive function and prevent boredom.

DAILY GUIDE: It is necessary to adjust the feeding of **TROTTER** to the condition of the horse. Provide horses with good quality hay and salt free choice. Provide plenty of fresh water.

Horse Class	Age	Suggested Feeding Range* (with limited hay) lbs/100 lbs body wt./day
GROWTH		
Yearling	12 to 18 mos.	0.85 - 1.30
Long Yearling	18 to 24 mos.	0.70 - 1.00
2-Year Old	24 to 36 mos.	0.65 - 0.90
ADULT		
Maintenance	Mature	0.45 - 0.80
Light Exercise	Mature	0.55 - 0.90
Moderate Exercise	Mature	0.65 - 1.00
BREEDING		
Breeding Stallion	Mature	0.60 - 1.00
SPECIAL NEEDS		
Diets with Minimal Hay	Mature	1.00 - 1.50

*Suggested program is based on offering grass or mixed hays. If feeding legume hays or rich pasture, consult your Blue Seal Sales Representative or Customer Service.

COMMENTS: For additional mineral-vitamin fortification, or if **TROTTER** is fed below the recommended feeding range, feed the appropriate **Winning Touch Equine Supplement**, depending on type of hay being fed.

The suggested feeding program above is intended solely as a guide. The variables of management, environment, and breed may dictate changes in the animal's requirements.
