

SBP 12-10™

Textured Horse Feed

Product Description

SBP 12-10™ is a high fat, high fiber, textured feed containing shredded beet pulp designed for active horses involved in a variety of competitive disciplines. **SBP 12-10™** offers a safe and natural way to provide essential nutrition and calories to performance horses. It is also an ideal choice for horses with elevated caloric requirements such as hard-keepers, rescue horses and metabolically challenged senior horses.

Available in a 50-lb bag.

Features and Benefits

Shredded Beet Pulp - A highly fermentable, low starch and sugar fiber source provides a safe and natural form of energy to the equine athlete. Shredded beet pulp delivers a slow, continual release of fuel for extended activity and performance without the risks associated with high-starch feeding.

Pressure Cooked Super-Fiber Nuggets - The pressure cooking process has been shown to improve feed digestibility and nutrient utilization. The unique combination of Beet pulp, Soy Hulls and Rice Bran provides extra calories in a highly fermentable form while promoting healthy digestive activity.

High Fat - Vegetable Oil increases energy density, improving stamina and delaying the onset of fatigue in competition horses. The addition of fat helps reduce the risk of starch overload while maintaining desired energy level for optimum weight and body condition of active horses.

Omega 3 and Omega 6 Fatty Acids - Essential fatty acids from Soybean oil, Flaxseed and Marine Algae (direct source of DHA) help promote a healthy skin and hair coat. DHA plays a role in the anti-inflammatory process, is a structural component of nerve cells and a key component of heart tissue.

Quality Protein with Guaranteed Lysine, Methionine and Threonine - Guaranteed lysine, methionine and threonine levels help ensure quality protein is available for the continuous growth and rebuilding of muscle tissue in active horses. Methionine is essential for good health and condition of hooves and hair coat.

SBP 12-10™

TEXTURED HORSE FEED FOR ACTIVE HORSES

GUARANTEED ANALYSIS

Crude Protein, Min.	12.0 %
Lysine, Min.	0.60 %
Methionine, Min.	0.25 %
Threonine, Min.	0.45 %
Crude Fat, Min.	10.0 %
Crude Fiber, Max.	15.0 %
Calcium, Min. 0.60 % Max.	1.10 %
Phosphorus, Min.	0.50 %
Magnesium, Min.	0.30 %
Potassium, Min.	0.90 %
Copper, Min.	45 ppm
Manganese, Min.	100 ppm
Selenium, Min.	0.4 ppm
Zinc, Min.	115 ppm
Vitamin A, Min.	4,000 IU/lb
Vitamin D, Min.	550 IU/lb
Vitamin E, Min.	110 IU/lb
Biotin, Min.	0.4 mg/lb
Total Omega-3 Fatty Acids, Min.	4.2 g/lb
Total Omega-6 Fatty Acids, Min.	23.0 g/lb
Total Bacillus Species*, Min.	454 million CFU/lb

(**Bacillus licheniformis*, *Bacillus subtilis*)

Contains a source of live (viable) naturally occurring microorganisms.

INGREDIENTS

Shredded Beet Pulp, Whole Oats, Alfalfa Meal, Wheat Middlings, Cane Molasses, Soybean Hulls, Soybean Oil, Soybean Meal, Steam Flaked Barley, Corn Distillers Dried Grains, Dried Ground Beet Pulp, Monocalcium Phosphate, Salt, Calcium Carbonate, Rice Bran, Magnesium Oxide, Sodium Bicarbonate, DL-Methionine, L-Lysine Monohydrochloride, Vitamin E Supplement, Vitamin A Supplement, Vitamin D3 Supplement, L-Ascorbyl-2-Polyphosphate (source of Vitamin C), Zinc Protein, Manganese Protein, Copper Protein, Zinc Sulfate, Manganese Sulfate, Copper Sulfate, Ferrous Sulfate, Calcium Iodate, Cobalt Carbonate, Selenium Yeast, Sodium Selenite, Biotin, Choline Chloride, Vitamin B12 Supplement, Riboflavin, Niacin, d-Calcium Pantothenate, Folic Acid, Thiamine Mononitrate, Pyridoxine HCL, Feed Grade Fat Product (source of omega-3 fatty acid DHA), Stabilized Flaxseed, Soy Lecithin, Yeast Culture, Dried Bacillus licheniformis fermentation product, Dried Bacillus subtilis fermentation product, Hydrolyzed Brewers Dried Yeast (source of Mannan Oligosaccharides), Dried Enterococcus faecium fermentation product, Dried Lactobacillus acidophilus fermentation product, Dried Aspergillus niger fermentation extract, Dried Trichoderma longibrachiatum fermentation extract, L-Threonine, Rosemary Extract, Natural Flavor.

CAUTION: This feed contains supplemental copper. Do not feed to sheep.

GENERAL OFFICES

Chelated Zinc, Copper and Manganese, *Plus* Bio-Available Selenium - *The greater mineral absorption and utilization helps meet the increased needs for bone, muscle and tissue strength in performance horses. The more biologically available forms promote the immune system sustaining overall health, especially in horses under stress.*

Advanced Antioxidant Package: Natural Tocopherols, Vitamin E, Selenium and Stable Vitamin C - *As potent antioxidants, these nutrients support tissue integrity and function, reducing muscle damage. Antioxidants maximize immune response and help maintain optimal health and metabolism.*

B-Complex Vitamins (including Biotin) - *Actively involved in the metabolism of carbohydrates, fats and protein into usable energy for performance. Added B vitamins support healthy growth of skin, hair and hooves.*

Probiotics and Prebiotics - *Direct-Fed microorganisms, Yeast Culture, Fermentation Products and Manan-Oligosaccharides (MOS) aid in maintaining healthy digestion and active microbial fermentation for sustained nutrient digestibility, absorption and assimilation. These additives, including guaranteed levels of Bacillus species, may support the presence of beneficial bacteria in the gut, resulting in a more stable digestive tract environment and ultimately sustained horse health.*

Suggested Feeding Recommendations:

Daily Guide: Adjust the feeding program according to the condition of the horse. Provide horses with good-quality hay, free-choice salt and plenty of fresh water.

HORSE CLASS	AGE	SUGGESTED FEEDING RANGE* lbs/100-lbs body weight/day
ADULT		
Light Exercise	Mature	0.50 - 0.75
Moderate Exercise	Mature	0.55 - 0.85
Heavy Exercise	Mature	0.75 - 1.00
Very Heavy Exercise	Mature	0.85 - 1.50
SPECIAL NEEDS		
Diets With Minimal Hay (Minimum 5 lb long stem hay/pasture recommended)	Mature	1.00 - 1.25

*Suggested program is based on offering grass or mixed grass hays. If feeding legume hays or rich pasture, consult your Kent Nutrition Group Equine Representative.

For additional mineral-vitamin fortification, or if **SBP 12-10™** is fed below the recommended feeding range, feed the appropriate **Kent Nutrition Group™ Equine Supplement**, depending on type of hay being fed.

The suggested feeding program is intended solely as a guide. The variables of management, environment and breed may dictate changes in the animal's requirements.
